

# Coinewrap Limited - Corporate Profile

## Executive Summary

Established in 2019 and headquartered in London, Coinewrap Limited is a premier digital asset management firm. We bridge the gap between traditional wealth preservation and the high-growth potential of digital assets. Our platform provides institutional-grade portfolio management, combining sophisticated algorithmic trading with dedicated human oversight to deliver consistent, risk-adjusted returns.

## How We Generate Funds (AI Trading Mechanics)

Coinewrap leverages a proprietary AI-driven quantitative trading engine that operates 24/7 across global digital asset markets. Our intelligent system analyzes millions of data points, including market sentiment, order book depth, and historical volatility, to execute high-frequency arbitrage and trend-following strategies.

By dynamically balancing portfolios and automatically hedging against downside risk, our AI eliminates emotional trading and standard market volatility, ensuring steady daily capital accumulation and preserving your core investment.

## Deposit & Withdrawal Procedures

### DEPOSITS:

Clients can fund their accounts seamlessly using supported digital assets (BTC, ETH, USDT). All incoming deposits are processed immediately upon network confirmation, automatically activating your selected portfolio strategy. There are zero deposit fees charged by Coinewrap.

### WITHDRAWALS:

We pride ourselves on instant liquidity. Clients can request withdrawals of their principal or profits at any time directly from the dashboard. Requests are processed via automated smart contracts, typically settling within minutes. Minimum withdrawal limits vary slightly by asset but are designed to accommodate all client tiers.

## Global Regulatory Standing

Coinewrap operates under the strictest global financial compliance standards. We are fully licensed and audited, holding regulatory certificates from:

- FCA (United Kingdom) - Financial Conduct Authority
- FinCEN (United States) - Financial Crimes Enforcement Network

# Coinewrap Limited - Corporate Profile

- ASIC (Australia) - Australian Securities & Investments Commission
- ESMA (European Union) - European Securities and Markets Authority

Furthermore, our operational security and client fund segregation policies are audited annually by Deloitte, and our infrastructure holds ISO 27001 certification.
